PROFILE SUMMARY

Dynamic Tech Lead & Full Stack Developer with 7+ years of experience in architecting, developing, and leading high-performance web applications using modern JavaScript frameworks. Proven expertise in the MERN stack, microfrontend architecture, and scalable UI systems across education, e-commerce, and enterprise domains. Strong track record of leading agile teams, implementing component-driven development, and driving code quality, performance optimization, and UI accessibility. Adept at aligning technology solutions with business objectives and mentoring cross-functional teams to deliver excellence.

CORE COMPETENCIES

Frontend: React.js, Next.js, TypeScript, Redux, Zustand, React Query, Storybook.js, Stencil.js
Backend: Node.js, Express.js, REST APIs, MongoDB
Architecture: Microfrontends, Component Libraries, Design Systems, AEM Front-End
UI/UX: Tailwind CSS, Material-UI, Bootstrap, Responsive & Accessible Web Design
DevOps & Tools: Webpack, Gulp, Git, Jira, Agile/Scrum
Soft Skills: Technical Leadership, Code Review, Mentorship, Cross-functional Collaboration

CAREER HISTORY

Codilar Technologies Pvt Ltd — Tech Lead / Senior Software Engineer

2023 – Present | Bengaluru, India

Leading a front-end team in building enterprise-scale React and Next.js applications.
Architecting modular, reusable UI components using TypeScript and Tailwind CSS.
Managing code reviews, performance optimization, and build pipelines using Webpack & Gulp.
Mentoring developers and conducting knowledge transfer sessions for scalability and quality assurance.

Magic Software — Senior Software Engineer

2022 – 2023

Engineered microfrontend-based solutions leveraging Stencil.js and Storybook.js.
Delivered responsive, pixel-perfect UIs using Tailwind CSS for global clients.
Collaborated with product and design teams to streamline workflows and reduce delivery time.

Regnant Software Solutions Pvt Ltd — Application Developer

2018 – 2022

Developed and maintained MERN stack applications focusing on scalability and maintainability.
Integrated asynchronous Redux patterns for improved API handling and state management.
Engaged in technical design, sprint planning, and client communication for multiple projects.

EDUCATION

Bachelor of Engineering (B.E.)

Sri Chandrasekarendra Saraswathi Viswa Maha Vidyalaya, Kanchipuram (2012 – 2016)

PROJECT HIGHLIGHTS

• Western Sydney University — React + Next.js digital education platform improving student experience.
• TAFE Queensland — Course management & enrollment system built with React, Redux & GraphQL.
• South Smoke (Ookha) — Scalable e-commerce platform with optimized checkout and microservices.
• Marina Homes — Real estate website with advanced property search and personalization.
• Falcon (Magic Box) — Enterprise learning platform using microfrontends and Storybook.js.

CERTIFICATIONS

• Advanced React.js & State Management (Udemy / Coursera)
• Agile Project Management – Scrum Fundamentals
